

AmpliVue®

Anytime. Anywhere
Molecular Assays

C. difficile

Implement anywhere

- No specialised thermocycling equipment, minimal bench space
- CLIA Moderately Complex
- Sealed, disposable cartridge reduces risk of amplicon contamination and need for an isolation room

Fast and easy anytime

- Results in 80 minutes with less than 5 minutes hands-on time
- Intuitive workflow – can be run by any technician 24/7
- Simple results interpretation

Cost effective

- No capital investment
- Built-in internal control
- Scalable batch size
- Lyophilized reagents extend shelf life, reduces waste and re-ordering
